His Excellency Marwan Ahmed Al Ali, Director General of the Department of Finance in Ajman, confirmed that the operation of the first peaceful nuclear energy reactor in the Arab world at the "Barakah" plant constitutes a qualitative leap in the process of civilized development in the Emirates.

Al Ali said - in a statement on this occasion - that this achievement, which was achieved with the help of the people of the Emirates, confirms that the wise leadership is working according to strategic plans to foresee the future and move forward in the process of civilized development, which has become a tangible reality that imposes itself in all fields.

He added, "The achievements that have been achieved to date in exceptional circumstances put on the shoulders of the people of the country a great responsibility to make every effort to follow the path of the wise leadership and the founding fathers in charting a bright future for our dear country."
