His Highness Sheikh Ammar bin Humaid Al Nuaimi, Crown Prince of Ajman and Chairman of the Executive Council, launched the "Ajman Smart Payment Gateway", which is a smart payment platform for the government of Ajman, keeping pace with the latest digital technologies in the field of payment for government services provided to customers, and through which government revenues are managed in a manner Safe and fast, according to the highest international standards. The platform, which was launched in His Highness's office at the Emiri Diwan, aims to provide multiple digital channels and options, allowing customers to easily pay for government services in the Emirate of Ajman. His Highness also launched the Ajman Gate digital wallet, which is the first digital wallet linked to the unified digital identity in the UAE, which is characterized by flexibility and accuracy, and provides customers with a unified interface, enabling them to pay and follow up all their financial operations with the government agencies of the Emirate of Ajman. This launch comes in line with Ajman 2021 strategy, which focuses on a society that contributes to building a green economy, stimulated by SCMED, a distinguished government in line with the spirit of the union. The services procedures provided by the Ajman Smart Payment Gateway will be characterized by ease and convenience for customers' requirements and convenience, to suit their lifestyle. Its digital operations encourage the adoption of paperless transactions, which contributes to building a sustainable economy, in which customers feel great about the services provided to them. An important step, Sheikh Ahmed bin Humaid Al Nuaimi, representative of His Highness the Ruler of Ajman for Administrative and Financial Affairs, and Chairman of the Department of Finance in Ajman, said that the launch of the Ajman smart payment gateway represents an important step, contributing to a qualitative leap in the efficiency of procedures for collecting the financial compensation for the services provided to the public of customers from Companies and individuals, as it provides them with a unified interface to pay the fees of all their financial operations for the services of government agencies in the Emirate of Ajman, using the latest international technologies. Sheikh Ahmed noted that the launch of the Ajman portal is the result of the effort and cooperation of the Department of Finance, and all government institutions in the Emirate of Ajman. We worked together in order to reach a modern technical infrastructure that suits their requirements and future aspirations, and here we look to these government institutions, as an authentic partner, who plays a key role in achieving the goals of the Ajman Gate." He praised the cooperation of government agencies with the Department of Finance to implement this strategic project for the Ajman government. Digital transformation "Ajman Gate" is characterized by a number of advantages that make it the preferred payment gateway for individuals and companies in the Emirate of Ajman, as it provides ease and convenience for customers, a high degree of safety and accuracy, and has multiple payment channels and options that suit different categories of customers. For his part, Marwan Ahmed Al Ali, Director General of the Department of Finance in the Government of Ajman, said that the launch of the Ajman portal comes in line with the digital transformation plan that the Ajman government has developed for the years 2017-2022, and aims to transform all government services into digital, which contributes to promoting development. sustainable economic. Digital wallets “Ajman Gate” provides multiple payment options, including the Ajman Gate Card, the Ajman Gate digital wallet, and global digital wallets, such as Apple Pay, Samsung Pay, credit cards, direct debit and prepaid cards, and direct debiting from the bank account “checks, cash payment and credit centers.” Service, self-service kiosks and SMS.”
