His Excellency Abdul Rahman Muhammad Al Nuaimi, Director General of the Municipality and Planning Department in Ajman, discussed with His Excellency Marwan Ahmed Al Ali, Director General of the Department of Finance in Ajman, ways to implement the Ajman Government Unified Smart Payment Gateway project, which was launched by the Department of Finance to enhance the emirate’s leadership in building a sustainable city economy. His Excellency Abdul Rahman Al Nuaimi explained that the department is seeking, under direct directives from His Highness Sheikh Rashid bin Humaid Al Nuaimi, head of the department, to support and adopt pioneering projects in the field of digital transformation in a way that advances the emirate to be a smart city that provides ideal services. By simplifying procedures and reducing times, he explained that the department will do the payment of its services through the platform aimed at unifying payment interfaces across all government channels to be a single platform, allowing the user to register for this service, using a unified entry and verification system, and enabling him to complete the payment process for several government services in one step. One, by finding a shopping cart for all services. For his part, His Excellency Marwan Ahmed Al Ali stated that all departments are intensifying their efforts and cooperating with each other to achieve the success of development projects, which will lead to the achievement of the Ajman government strategy and keep pace with the aspirations of our national leadership to achieve the highest rates of digital transformation according to the highest standards, through a single smart platform that relies on the latest technologies in the field of Managing and developing government financial resources to achieve sustainable development for the Emirate of Ajman and enhance the country's competitiveness.
