The Ajman Digital Department and the Department of Finance signed a cooperation agreement with MBME, which allows the public to access federal services, private sector services, and Ajman Smart Payment Gateway services, through the unified government application "Ajman One".

The agreement came on the sidelines of the Ajman government's participation in GITEX Technology Week, where it was signed by Ohoud Shehail, Director General of Ajman Digital Department, Marwan Ahmed Al Ali, Director General of the Department of Finance, and Abdul Hadi Mohamed, CEO of MBME.

Ohoud Shehail said that the signing of the agreement enhances the Ajman government's march in digital transformation, stressing that adding the services of the Ajman smart payment gateway to the Ajman One application is an important step in terms of customer happiness, as it saves time, effort and expenses, and provides them with more technical solutions to achieve Their government and daily transactions in easy and simple ways.

She added: We strive for the Ajman One application to be a comprehensive and distinctive application for all customers of government agencies in the Emirate of Ajman, and we are making unremitting efforts with all our partners, to add new services, by concluding more partnerships and agreements, which we will announce soon.

Quantum leap

Marwan Ahmed Al Ali, Director General of the Department of Finance, said: “We are happy to conclude this strategic partnership, which will make it easier for customers to complete all their government and private sector services on the one hand, and benefit from the services and benefits of the Ajman Smart Payment Gateway on the other hand, with ease. Through the unified government application Ajman One. We are confident that this agreement will contribute to a quantum leap in maintaining business flexibility and achieving a sustainable digital economy in the Emirate of Ajman.”

Efficiency of services

Abdul Hadi Mohammed, CEO of MBME, said: “We are proud to work with the Ajman Department of Finance and the Ajman Digital Department, and to contribute to achieving their goals, which are to enhance the efficiency of services provided to the public, by providing the bill payment platform provided by MBME, On the unified application of the emirate - Ajman One. Also, this cooperation is an important step in Ajman’s march, to raise the level of customer satisfaction and achieve digital competitiveness, in which customers feel happy about the services provided to them.”

The Ajman One application provides government and private sector services to the public, such as paying Etisalat, Du, Salik bills, airline tickets, and other services that save time and effort for customers in the emirate.
