The Department of Finance in Ajman announced that the digital wallet of the Ajman Smart Payment Gateway is the first digital wallet that is linked to the unified digital identity in the United Arab Emirates UAE Pass, which allows users to access the services of local and federal government bodies, other service providers, as well as various entities from the sector Private, securely sign documents via smartphone. This connection was achieved through a strategic partnership that was held between the Department of Finance in Ajman, Smart Dubai and the Telecommunications Regulatory Authority. The digital wallet of the Ajman Smart Payment Gateway is characterized by flexibility and accuracy and provides customers with a unified interface that enables them to pay and follow up on all their financial operations with the government agencies of the Emirate of Ajman. It also encourages customers to embrace the digital economy as no additional transaction fees are charged when making a wallet payment, compared to other traditional payment methods. The digital identity enables customers to register with the Ajman Smart Payment Gateway with ease and comfort, as linking the identity to the gate allows customers who wish to register with the gateway to create their accounts and register using the Emirates ID number, mobile phone number or e-mail, if they have previously registered with the digital identity , which facilitates access to government services and simplifies transaction procedures. Dr. Aisha Bint Butti Bin Bishr, Director General of Smart Dubai, said, "We always strive to raise the highest levels in the field of digital transformation, to provide a better quality of life and a better living experience for our customers. We appreciate the efforts of the Department of Finance in Ajman for this great cooperation, which will be keen to provide Exceptional experiences for customers in the service sector, ensuring their happiness." For his part, His Excellency Hamad Obaid Al Mansouri, Director General of the Telecommunications Regulatory Authority, said, "The United Arab Emirates continues to move forward in the process of digital transformation, and we are here to follow suit, in order to develop the efficiency of services provided to the public, as this strategic alliance with the Department of Finance In Ajman, it represents an important step for the sustainable digital economy.His Excellency Marwan Ahmed Al Ali, Director General of the Department of Finance in Ajman, said, "This agreement contributes to making a shift, as when the customer makes a quality in maintaining business flexibility, he registers in the Ajman Smart Payment Gateway through The digital identity has easy, convenient and secure transaction procedures, so that the customer may not sometimes have to come in person in order to make or sign a transaction, which makes the UAE occupies the forefront of digital competitiveness.
