Sheikh Abdul Aziz bin Humaid Al Nuaimi, Chairman of the Department of Tourism Development in Ajman, announced the linking of the digital services of the Department of Tourism Development in Ajman with the Ajman Smart Payment Gateway. He said that the launch of the Ajman smart payment gateway, which offers various payment options and channels, was the culmination of the efforts made by the Department of Finance in Ajman aimed at diversifying and developing the financial services sector and upgrading its components at all levels. Given that the Ajman gateway meets our needs and future aspirations, we are proud to be an authentic partner. Contributes to achieving the goals of the portal. Sheikh Abdul Aziz bin Humaid Al Nuaimi added that the Ajman Tourism Development Department is working to consolidate the emirate's leading position in the field of digital transformation and highlight the pioneering model of the government service sector in the emirate, which can only come with concerted efforts and cooperation between various government departments in the emirate of Ajman. Therefore, the department provides all the payment options and channels provided by the Ajman smart payment gateway, which is characterized by ease and convenience, and represents an important step in the field of developing the efficiency of services provided to the public. For her part, Her Excellency Ohoud Shuhail, Director General of Ajman Digital Government, said that this joint cooperation came in implementation of the directives and aspirations of our wise leadership, which would support the emirate's digital transformation plan, as the Ajman Smart Payment Gateway, which is the unified payment gateway for the emirate, came to provide options and payment channels. Multiple services contribute to saving time and effort, which ensures the ease of providing services to the public.
